

See 3 New Brunswick covered bridges in 3 hours

Road surface:

chip seal / gravel, no shoulders

Difficulty:

Easy to average, with some hills

Start at Salmon Covered Bridge Park, TCH Exit 195, one km past intersection.

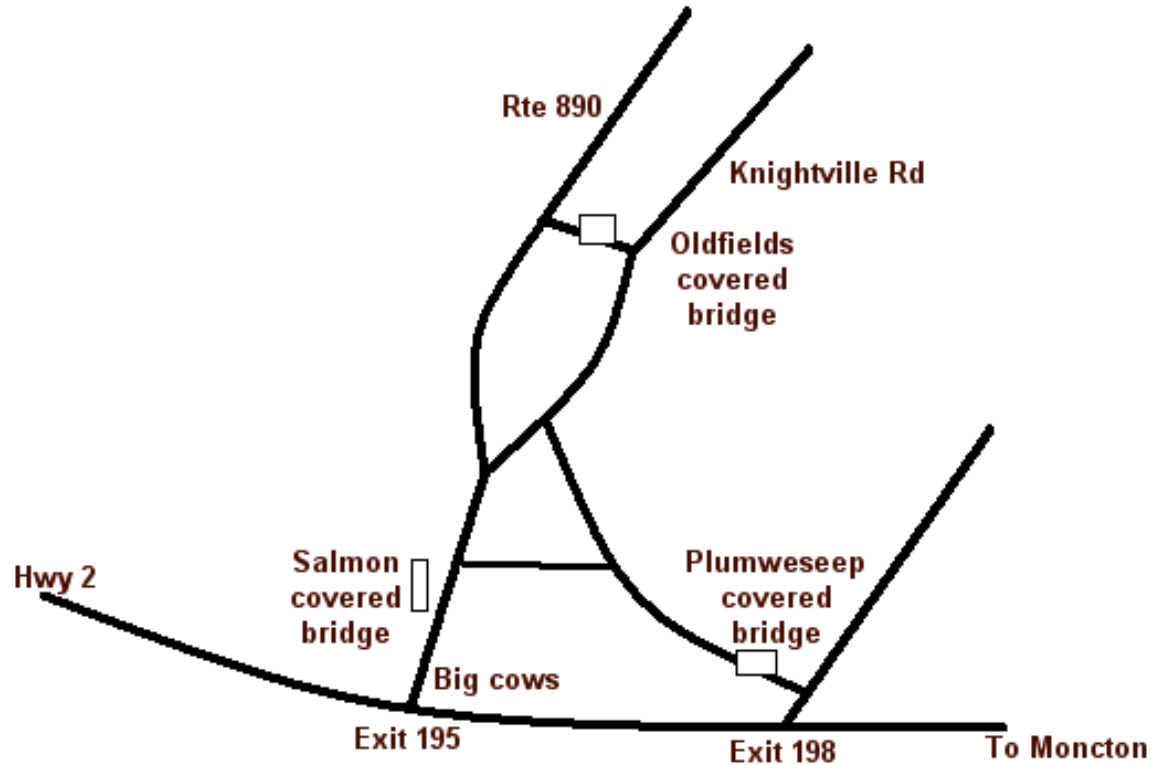

Turn left upon leaving the park and follow Rte. 890 16 km to Newtown.

Take the gravel Oldfields crossroad to the bridge and nearby picnic area.

Go through the bridge and turn right onto the Knightville Road, where you want to follow the signs to Sussex.

About 1 km before the Knightville Road meets Rte. 890, you will see a sign pointing out the Plumweseep Road on your left. Follow this new road to the Plumweseep covered bridge. Next, backtrack, crossing the railroad tracks again, and take the Plumweseep crossroad on your left.

Follow the crossroad to Rte. 890, where you turn left and return to Salmon covered bridge park and your vehicle.

Watch for blue and white road showing the way to our covered bridges.

Due to weight restrictions and the size of the bridge portals, these covered bridges may be crossed safely by pick-up trucks, cars and small campers.

Tour coaches, large campers and RVs will find the Salmon Covered Bridge Park, Trans Canada Highway Exit 195, the most convenient place to stop and enjoy a covered bridge.
